

Ristin Sheikho

Informatics Engineer | Web Developer

PROFILE

Motivated Informatics Engineer with a strong interest in web development and modern technologies. Skilled in building structured, responsive, and user-friendly websites using HTML, CSS, JavaScript, and PHP. Passionate about continuous learning, improving technical and problem-solving skills, and turning ideas into practical digital solutions. Interested in gaining hands-on experience and growing as a professional web and software developer.

TECHNICAL SKILLS

Front-End: HTML, CSS, JavaScript, Responsive Web Design

Back-End: PHP, basic Java, basic MySQL

Design: Adobe Photoshop, Adobe Premiere Pro, Graphic Design

Other: Website structure, user-focused design, project organization, XAMPP

EDUCATION

Bachelor's Degree in Informatics Engineering

Private university studies in Informatics Engineering.

PROJECTS & PRACTICAL WORK

Personal Portfolio Website

Designed and developed a multi-page personal portfolio using HTML, CSS, JavaScript, and PHP, including sections for About Me, Skills, Projects, and Contact.

Web & Marketplace Projects

Worked on web interfaces and academic projects involving product listings, user interactions, forms, and local data management.

Graphic Design & Digital Content

Created promotional visuals and social media content, combining graphic design skills with practical experience in digital presentation.

LANGUAGES

Arabic: Native

English: Very Good

French: Good

CAREER OBJECTIVE

My goal is to continue developing my knowledge in web and software development, learn more advanced technologies, participate in challenging projects, and become a versatile developer capable of building useful, reliable, and modern digital solutions.
